### Appointment of Election Board Also Occupies Council Meeting

Antioch will again follow its custom of adopting daylight saving time for the summer months, in conformity with Chicago and Waukegan, it was decided at a meeting of the Village council Tuesday evening.

The resolution, as adopted by the board, calls for the start of daylight saving on Sunday, April 27, and its continuance until Sunday, Sept. 28.

Since the resolution was drawn up, it was learned that Chicago and Waukegan may continue the daylight saving through October. No action, however, has been taken here with regard to its observance in October.

The election board to serve for the village election here Tuesday, April 15, was appointed.

It consists of J. C. James, Mrs. Bassett and Frank Mastney judges; Mrs. Myrus Nelson, Mrs. Marion Rigby, Mrs. Julia Rosenfeldt, clerks.

## Sandbag Weight Guessing Contest Winners Named

### Otto S. Klass Announces Six Who Are Receiving Overall Prizes

Winners in the sand bag weight-guessing contest sponsored by Otto S. Klass' store during the past two weeks are Arnold Bolton, Bill Dow, C. Crowley, Morris Verkest, all of Antioch; H. T. Meinersmann, Lake Villa, and Bob Jensen, Fox Lake.

A pair of Oshkosh B'Gosh overalls was awarded to each of the six persons guessing most closely the weight of a bag of sand which had been on display in the store window, hung from the leg of a pair of Oshkosh B'Gosh overalls.

The actual weight of the sandbag was 48 pounds, it was announced at the official weighing in held in the store Saturday evening.

The 397 guesses received at the store during the contest varied all the way from 6 to 225 pounds.

Guesses of the six winners were: Dow, Verkest, Jensen and Crowley each guessed 48 pounds; Meinersmann guessed 48 pounds, 2 ounces, and Bolton's guess was 47 pounds, 14 ounces. Acting as witnesses for the weighing-in were Sid Dibble, Ralph Kinrade and Frank McCarthy.

All of the winners except Meinersmann and Jensen have already called for their prizes, and they will also receive theirs as soon as they call at the store.

## "Enriched" Bread As Defense Help

Responding to the National Research Council's much-discussed recommendations for new standards of nutrition in white bread—which the Council termed essential to the nation's health in meeting the demands of the defense effort—the Great Atlantic and Pacific Tea company has announced a new white loaf, "enriched" with Vitamin B-1 and other vitamins and mineral factors to the nutritional level of whole wheat bread.

"This move," said J. P. Smith, vice-president of the Chicago unit of the food chain's middle western division, "follows closely the intensified government interest in making these essential food elements more widely available on the national defense effort's civilian front."

Each pound of the company's "Marvel" brand white bread, Mr. Smith explained, will contain 450 International units of the "morale-building" vitamin known to the public as B-1, and also added quantities of the pellagra-preventive vitamin, and iron.

It was pointed out that heretofore much of the vitamin and mineral value of wheat has been lost in the milling process, because of Americans' preference for delicate, white bread. The result has been that although white bread has been an important staple food, it has been relatively low in certain minerals and vitamins of the "B" complex. The restoration of these elements, according to nutrition experts, makes white bread one of the housewife's richest food sources of these essential vitamins.

## The Observer

Another sign of spring—a couple of guys with a boat on top of their car, speeding lakes-ward, along the highway.

Those new apartments over Frank Powles' meat market are rapidly approaching completion, and greatly improve the looks of the building, being nicely designed and all that.

The fish are beginning to show signs of "biting" out in the lakes, Charley Haling reports. There isn't much fishing in the channels yet, though, he says.

## "Old Guard" Holds In Salem Township

### Incumbents Give up but One Office in Tuesday's Annual Election

Losing but one township office, the incumbent office holders in Salem township, (referred to as the "old guard" by reason of their long tenure of public service), held the line and were returned to their posts Tuesday in one of the most exciting elections held in recent years.

The lone loser in the balloting was Supervisor Fred Meyers, who lost to William Cook, 378 to 359. The other winner for supervisor was Jos. Greenwald with 370 votes.

William (Bill) Fox made a gallant race against Arthur G. Hartnell, but fell 150 votes short of defeating the veteran chairman of the town board, the totals being 324 for Fox and 473 for Hartnell.

Arthur Bushing, justice of the peace, defeated Gerald Siebert, 493 to 270, and Leo McVicar for assessor was victor over David Kimball, 411 to 374. Other offices were not contested. High vote of the day, 749, re-elected Town Clerk Alfred Schmidt.

At the annual town meeting held at 2 o'clock it was voted to raise the annual salary of the town clerk from \$560 to \$750. About 360 voters attended the meeting, and the ballot for the day reached a total of about 800 votes, indicating that civic interest does not lag in town.

## Seek 'Low Down' on State Relief and Public Assistance

### Northern County Legislators to Meet in Waukegan Friday

Determined to find means of improving the administration of relief and public assistance, the Joint Legislative Committee studying relief and public assistance, the Joint Legislative committee studying the problem will hear representatives of a dozen northern Illinois counties at Waukegan on Friday.

Invited to the hearing, which will open at 10 a. m. in the Lake County Circuit Court room, are county clerks, county judges, state's attorneys and county superintendents of old age assistance from Lake, McHenry, Boone, Winnebago, Ogle, DeKalb, Kane, DuPage, Will and Kendall counties.

Senator T. MacDowning of Macomb, Republican, is chairman of the committee. Representative R. M. Woodward (Rep.), Chicago, is vice chairman; and Representative H. D. Kelsey (Rep.), Barrington, is committee secretary.

Other members are: Senators R. G. Crisenberry (Rep.), Murphysboro; R. J. Daley (Dem.), Chicago; N. L. Hubbard (Dem.), Mt. Pulaski; and J. B. Leonardo (Rep.), Chicago; and Representatives Homer Caton (Rep.), Stanford; S. O. Dale (Rep.), Fairfield; H. S. Burgess (Dem.), Fairfield; G. A. Fitzgerald (Dem.), Chicago; J. L. Wellington (Dem.), Belleville.

"The purpose of this committee," Senator Downing explained, "is to look into administrative and relief costs, to study the adequacy of existing legislation, and to consider the desirability of coordinating the various forms of public assistance."

This is not an inquisition. We are not mud-slinging or looking for dirt. Neither do we desire to throw rocks at previous administrations. The members of the Legislature—Democrats and Republicans alike—are in accord in their desire to improve relief administration if possible."

## "The Nations Must Change Their Ways" Says Professor Cobb

The lack of co-ordination between the nations of the earth, as evidenced by arbitrary tariffs, restraints of trade and displays of dislike, ill feeling and hatred was decried by Prof. Stanwood Cobb, noted educator, psychologist and author, in a talk heard by 40 persons Saturday evening in the home of Mr. and Mrs. James W. McMillen.

Prof. Cobb, who is also the director of Chevy Chase Country school for children at Chevy Chase, Md., urged a change in the existing order of things, and stressed education and religion as potent forces that might help bring about such a change.

"There is something wrong with the order of things that will permit a nation to pour out its heart and money to relieve the suffering of the people of another nation in the event of a great disaster, but will under different circumstances go to war with the people of the same nation merely to gain an end," he said, in effect.

Following questions asked on the so-called new theories being followed in elementary education, the professor indicated that there is not now, and there never will be a substitute for personal effort on the part of students, and that the three R's are still essentials and are the basic ground work for educational attainment.

Prof. Cobb is well known to educators, and to persons interested in the psychology and training of youth, as the author of "The New Learning" and "New Horizons for the Child." He is also a noted exponent of Humanism, an international philosophy of religion based on the tenets of universal peace and brotherly love.

## POLITICS IN THE DRIVER'S SEAT

## Antioch Choir Places 3rd in Music Contest

### High School Singers Take Honors in State Meet at Argo, Ill.

Antioch Township High school took third place in the Illinois state music contest held at Argo, Ill., Saturday, competing in class B.

Twenty-eight students made a trip by bus to Argo, Ill. Due to the illness of several outstanding choral members, the number of the chorus was considerably smaller than it ordinarily is.

The well-known choir director, Nyvall, gave the Antioch choir a third place rating. Under the direction of Hans von Holwede, musical director at Antioch High school, the required numbers, "Cherubim Song," by Muzichevski, and "Were You There," by Burleigh, were sung unaccompanied. Nyvall made the following complimentary remarks on the singing of the chorus:

"An excellent bass section... It would take very little to make this choir outstanding."

Eddie Ruschewski won a first place, competing as a lyric baritone in the solo events.

In Latin Contest

Five students from the high school were accompanied by Margaret McDorman, Latin instructor, Saturday morning to Maywood, where they competed with 75 other students from high schools of Lake and Cook counties in the district meet of the Illinois Latin tournament, an annual meet held under the auspices of the Illinois Classical conference.

Doris Klass competed in the comprehensive fourth-year Latin contest; Virginia Poulson and Doris Strang competed with second-year Latin students; and Rosalie Sibley and Richard Luedtke were contestants in the first-year Latin group.

At the close of the contest a special luncheon was held for all of the contestants.

Results of the Latin contest have not as yet been received.

High vote was received by Assessor E. L. Simons, 387, with C. F. Richards, veteran town clerk, a close second with 381.

A complimentary vote was given to Robert King whose name was written on the ballot 89 times for member of the township library board. Only a small percentage of voters knew that a "write in" campaign was being staged for the Antioch district.

## Antioch Library Gets Rare Volumes

### Historical Society Avers Newspaper Was Printed in Antioch in 1844.

In 1844 E. L. Ingalls printed a weekly paper called "The Prairie Hen" in Antioch, for \$1.50 per annum, according to a recent finding of the Illinois Historical society which has been received by Miss Mary Stanley, librarian of the Antioch Township library. "None of the histories, or the Waukegan newspapers, has given any Lake county town outside of Waukegan credit for printing a newspaper at this early date," says Miss Stanley, "and this finding is therefore of particular interest to Antioch people."

The Antioch Township Library board has also acknowledged with gratitude three recent additions to the stock of early-Antioch references, described by Miss Stanley as follows:

"The Antioch News gave a delightful book of our town in the year 1923. Mr. Ira Simons has promised to will to the library a genealogical book to great value and which is out of print. Histories of nearly 40 of our early settlers are contained in this work."

"Mrs. Eleanor Micheli, president of the library board, is giving two Lake County atlases of the years 1885 and 1907. These books are also out of print and contain many items of interest concerning the early settlement of Antioch."

#### 1,000 per Month

"The circulation of the library continues to be well over a thousand volumes per month, during these winter months. That figure will more than double during the summer."

"Mrs. Edmund Vos is having 20 beautiful colored Audubon bird-prints framed. These prints were given to (continued on page 5)

### You Are Lucky Today

The last century was a period of unbelievable progress. But in no field was greater progress made than in care of the sick, and in advancing the standards of public health.

A century ago, for instance, anesthesia for surgical operation was unknown—it did not come into use until 1846. And even later, in Civil War days, hospital death rates of 20 per cent and more were not uncommon. Nothing was known of infectious diseases, the germ theory had not been heard of, and sterilization of instruments and dressings was never practiced. Not until 1868 was a start made in curbing and controlling infection.

Startling is the fact that 99 out of 100 American hospitals were founded within living memory. Fifty years ago hospitals were generally confined to large cities—in small towns and rural areas operations took open vessel steaming on a stove as a sterilizer. The modern vessel steaming on a stove as a sterilizer. The medical men were not content. It was due to their initiative that hospitals in smaller centers were gradually established.

The whole history of medicine is a history of individual effort—of tireless private initiative—of unselfish men fighting the endless war against disease and public ignorance. And all of us lead happier, fuller lives because of it.

### We Win A Doubtful Honor

The Roman poet Lucilius once wrote of a feeling that comes to a person standing on the shore when there is a great storm at sea and watching the tribulations of others. Lucilius declared that it was not enjoyable in itself to see others in difficulty, but that the sensation was enjoyable because "to perceive what ills you are free from yourself is pleasant."

We may not all share that attitude. But there is no denying that there is a certain comfort even when

you are in difficulties yourself, in being able to point to someone else and say, "He's worse off than I am!"

In the field of taxation, many Americans have in recent years taken exactly that tack. Faced with constantly growing burdens, federal, state and local, they have drawn a measure of consolation from hating a thorn in the direction of Great Britain and what was commonly admitted to be her much heavier tax rate.

Now, according to the New York Times, even this satisfaction has been taken from us. Before the present War, the Times tells us, the ratio of taxes to national income in both nations was about the same, standing at slightly over 20 per cent. But under the impact of war spending, British national income has probably risen sufficiently to bring the ratio down around 19 per cent; and leave the United States the owner of the highly unwelcome "booby prize" in this field.

In the past, many people have made the mistake, in comparing the tax rates in these countries, of simply matching taxes of the respective national governments. Actually, the national government is the chief collecting agent in Britain, while added to our own federal taxes is a sandbag structure of state and local levies. In addition to enormous Federal taxes, some 175,000 state and local tax collecting units in the United States take in many billion dollars yearly. It is undoubtedly extravagance in all three divisions—federal, state, and local—that has finally sent this country ahead in the unfortunate tax burden marathon between the two countries.

Even the small and meaningless consolation mentioned by the Roman poet seems no longer left to us; in sober face, we are really the ones who are now at sea. And with the need for adequate funds for the national defense, it is certainly time we pulled for the safety of shore, and made an effort to cut out all possible waste in the non-defense spending of our various governmental bodies!

### Patience Not Unlimited

News reports tell of a threatened strike by highly paid workers in a big army cantonment, because the contractor in the case has employed some non-union workers—free American citizens who have a right to work.

If the "dollar-a-day" young men who have been conscripted into the army threatened to walk out because they didn't agree with the ideas of a new bunch of conscripts coming into camp, the crackdown would be swift and harsh.

## Progressive Kenosha Firms That Merit Your Patronage

**PROGRESSIVE—What Does It Mean?** It does not necessarily mean the largest nor the best equipped establishments. However, it does mean that these people have earned the name of leaders in their fields. We have listed for your benefit those who are outstanding in their fields of business in Kenosha and com-

munity. Those in the outlying communities who trade in Kenosha have patronized these firms in the past and have found them to be honest in every respect. Those who have not done business with them are invited to visit their places of business.

My modern, non operative method has proven a God-send to many people afflicted with RUPTURE who cannot afford hospital expense or the loss of time from work. This treatment is no longer considered new, as it is being used by many good physicians with splendid results. It requires but a few minutes of your time to administer it, after which you can immediately return to your duties. My list of satisfied patients is growing rapidly. A thorough examination without cost will determine whether your case is suitable to my method. PILES, FISSURES and all other rectal and colon afflictions also corrected by my mild, safe office method.

## LAKE FOREST SHRINE HONORS POLLOCK

S. E. Pollock was installed as watchman of the shepherds at installation ceremonies held by the Lake Forest chapter of the Shrine on Friday evening, and was presented gifts of stationery and a "pencil flashlight" in token of esteem by the chapter.

Last Wednesday evening he attended an installation held by the Shrine in Des Plaines, and on Monday evening of last week he attended a past officers' night held by the Richmond Eastern Star chapter.

Mrs. Mollie Somerville, who has been confined to her home for the past two weeks on account of illness, is much improved and is able to be out again. Guests at the Somerville home over the week-end were Mr. and Mrs. Earl Somerville of Kankakee and B. Bernbaum of Cleveland, Ohio. Mr. and Mrs. A. Swanson who have spent the past month with Mrs. Somerville, returned to their home in Colon, Mich., Sunday.

Mr. and Mrs. H. H. Lattin moved out from Chicago to their cottage on Lake Marie on Tuesday. The Lattins have been coming out to the lake for the past 18 or 20 years. Up to this past year they generally made their home here the year around. Their son, the late Ralph Lattin, is remembered by many here and in nearby cities as the director of the "Spider Six" orchestra that used to play at the old pavilion at Channel Lake 12 or more years ago.

Mrs. George Anzinger and Mrs. Chase Webb returned Tuesday from a week's trip to Natchez, Miss., where they visited some of the old mansions of the early south. Baton Rouge, La., Gulfport, and Biloxi, Miss., and Mobile, Ala. where they visited the Bellegarde gardens, the only years-round gardens in the world, were other places they visited.

Guests at the home of Dr. and Mrs. E. J. Hays during the week-end included Mr. and Mrs. T. Georgeon, Mr. and Mrs. J. Armstrong Cooper of LaGrange, Ill., Mr. and Mrs. Arthur Vick and daughter, Bonnie, Mrs. Frank Thompson, Mrs. Francis Dahn and daughters, Shirley and Mildred, all of Woodstock, Ill., and Mrs. W. Willet, Des Plaines; Mrs. Carrie Kaiser, Hobart, Ind., and Mrs. A. J. Hays.

## MOTHER-DAUGHTER BANQUET PLANNED

The Mothers' Club will meet at the home of Mrs. J. C. Jones, 2401 S. 1st street, Tuesday evening, April 8, at 8 o'clock. Mrs. A. N. Berke will be co-hostess. Final plans for the annual Mother-Daughter banquet will be completed.

## FLOWER TIME

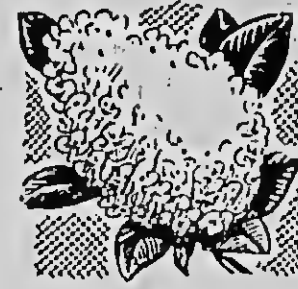

OF COURSE flowers are appropriate at any time of the year; but they are never so much in place as at Easter time. Why, to many people the word "Easter" immediately conjures up a mental picture of lilies or other flowers. Flowers are "right" anywhere at Easter time. In the home of course, in the church, at the office or at school, corsages, boutonnieres—flowers fill a need for Easter. And they're low-priced, too. We will be glad to telegraph flowers for you to any part of the United States or Canada. Drop in today.

### Passion Play Will Be Presented Starting Apr. 6

The 1941 season of the Zion Passion Play will begin Sunday afternoon, April 6, in the Zion auditorium, Zion, Ill., and continue until June 29th with presentations every Sunday afternoon at three o'clock, Chicago time, and on Thursday evenings, June 12 and June 26 at eight o'clock, Chicago time. Zion Passion Play was presented in 1935 and has been given every year since with the exception of 1938 when there was no presentation because of the destruction of Shiloh Tabernacle and consequent loss of all Passion Play equipment the year before.

During the five seasons in which the Passion Play has been given it has grown from an ordinary church production to a Passion Play of international importance, having become known in that time as the "Oberammergau of America," so named by those who have seen both productions.

The Zion production was written and is directed by a young minister of the Christian Catholic Church, the Rev. Jabez Taylor of Zion, Illinois, who is the scenic artist and property designer as well. In 1935 the Rev. Taylor traveled in Palestine, Syria, and Egypt studying the actual scenes where the Bible story was made and the scenery of the Zion Passion Play was painted by him from sketches and photographs made on this trip through the Near East. The costumes, also, were designed with an eye to the greatest possible authenticity. The cast of the Passion Play is made up of men, women, and children, members of the Christian Catholic Church, who come from all walks of life. The butcher, the baker, and the candlestick maker as well as the housewife, the switchboard operator, and the preacher are all found in the Passion Play in some capacity.

The molding of this group of diverse personalities into the personalities of the Gospel story has been under the direction of Madam Sophia Swanstrom Young. Since 1935 Madam Young has coached the Zion Passion Play cast in dramatic interpretation and to her is due much of the success of the presentation. To the members of the cast the Passion Play is a religious service and though the presentation is entirely objective it is nevertheless, in the final analysis, a great sermon.

The production takes three hours to present and the twenty-six last minute scenes, portraying the life of Jesus of Nazareth, hold the audience in the grip of intense interest. For the duration of the production the prayer is forgotten and a drama of 2000 years ago holds the complete attention of the spectators.

Tickets of all presentation are now available. It is the policy of the Passion Play management to make no distinction of class, no distinction of age, and there are special reductions to groups of twenty or more. For further information write to Zion Passion Play, Zion, Illinois.

### NYA PLANS FARM SHOP BUILDINGS

Chicago—Special—Cooperating with the Illinois State Board for Vocational Education, the National Youth Administration is planning the erection of a limited number of "farm shop" buildings in connection with schools in communities having a population of 2,500 or less. It was announced today by State NYA Administrator Mary Stuart Anderson.

The designs of building are to be determined by local school boards and may be built of any material desired. Officials of the State Board for Vocational Education said. The NYA has designed a frame building 33 feet by 80 feet which it is expected will be used where adherence to the existing type of school architecture is not required.

Details of the program are now being worked out by representatives of the NYA and local boards of education throughout the state.
